or toll free 888-808-7707, ext 3

- To order power for your lights, take the wattage on the bulbs and multiply by the number of lights you are using.
- For appliances, you may place your order by reading the rating plate on each individual piece of equipment. A separate outlet should be ordered for each piece of equipment as well as each location you require power. Rating plates are located on all pieces of electrical equipment and will indicate wattage, amperage or horsepower, voltage and phasing.

See the chart below to select the type of plug you need.
